## TITLE 6—AGRICULTURAL CREDIT

### Chapter IV—Production and Marketing Administration and Commodity Credit Corporation, Department of Agriculture

#### Subchapter C—Loans, Purchases and Other Operations

##### PART 672—WOOL

##### SUBPART—1953 WOOL PRICE SUPPORT PROGRAM

Sec.  
672.375 General statement.  
672.376 Level of price support.  
672.377 Shorn wool nonrecourse loan rates.  
672.378 Pulled wool purchase prices.

**AUTHORITY:** § 672.375 to 672.378, issued under sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. Sup. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 201, 401, 63 Stat. 1052, 1054; 15 U. S. C. Sup. 714c, 7 U. S. C. Sup. 1446, 1421.

§ 672.375 *General statement.* This subpart states the national average support level for wool, the nonrecourse loan rates for shorn wool, and the purchase prices for pulled wool, under the 1953 Wool Price Support Program. Commodity Credit Corporation (CCC), through the Production and Marketing Administration (PMA), will support the prices of shorn wool by means of nonrecourse loans to producers through approved wool handlers and the prices of pulled wool by means of purchases from producers either directly or through approved wool handlers. The terms and conditions for price support under such program, which are being formulated by CCC and PMA, will be issued as soon as practicable.

§ 672.376 *Level of price support.* The national average support level to producers for domestically produced wool will be 53.1 cents per pound, grease basis, which is 90 percent of the parity price for wool as of the beginning of the marketing year, April 1, 1953.

§ 672.377 *Shorn wool nonrecourse loan rates.* The nonrecourse loan rates for domestic shorn wools, by grades and classes, clean basis except as to off wools, at Boston, Massachusetts, are set forth in sections I to VII of the following schedules. Discounts are generally noted in sections VIII and IX. The actual rates of disbursement to producers by handlers from the nonrecourse loan

proceeds will be those in the schedules, less appraisal charges, appropriate transportation charges (depending upon where the wool is stored when the loan is made), handling, grading, warehousing, and other charges.

#### SCHEDULE OF LOAN RATES FOR DOMESTIC SHORN WOOL

(Greasy, scoured, carbonized, effective date, Apr. 1, 1953)

All rates in this schedule are at Boston, Mass. They are subject to discounts set forth in sections VIII and IX of this schedule, and to deductions provided in the handler's agreement.

12. *Tags.* Graded or original bag wools containing fleeces carrying an excessive amount of tags shall be discounted up to seven (7) cents per clean pound from the clean basis appraisal value.

## SECTION IX—SPECIAL PROVISIONS

1. *Classification of greasy wool:*

A. *Graded wools.* Appraisers shall assign to each lot of greasy wool the single class which best represents the lot. Use no split classifications. When the grade and/or length of a lot of graded wool falls between two classes described in the schedule, the appraisers may classify it as of the higher of the two classes and discount the clean basis value applicable to that class up to five (5) cents per clean pound, providing the lot as prepared for market is merchantable. This procedure shall not be used in the case of lots varying so widely in grade and length of staple that the wool is not in readily merchantable condition. Appraisers shall order such wool to be regraded before appraisal.

B. *Original bag wool.* "Original bag wool" means wool in the bag in which it was packed by the producer, and sufficiently uniform in grade and length so as to be readily merchantable, with offs (black, gray, bucks, burry and seedy, dead, rings of tags, crutchings, etc.) removed. Such wool containing fleeces which carry defects not sufficient to place them in the "off-wool" classes named in the above definition of original bag wool, is subject to the applicable discounts set forth in section VIII.

(1) Grade classification of original bag wools. Appraisers shall adhere strictly to the following procedure in appraising original bag wools with respect to grade.

(a) Appraise as class A-1, section II, only original bag Territory wools containing 64s and finer fleeces.

(b) Appraise under classes A-2, A-3, or A-4 of section II, original bag bulk fine Territory wools containing not in excess of 25 percent, by weight, of 60s fleeces and containing no fleeces of 58s or coarser grades. Lots containing 60s fleeces in excess of 25 percent by weight, or any 58s or coarser fleeces must be graded before appraisal.

(c) Appraise under classes A-1, A-2, or A-3 of section III, original bag twelve months Texas wools containing only 64s and finer fleeces. Lots containing any 60s fleeces or 58s or coarser fleeces must be graded before appraisal, except crossbred types of twelve months Texas wools produced in Central and West Texas only.

(d) Appraise eight months and fall Texas wools in original bags under classes A-4 through A-7 only when fully 64s or finer in grades. Lots containing wools coarser than 64s must be sorted before appraisal, and eight months and fall wools coarser than 64s must be scoured before appraisal and loan values shall be determined under section VI.

(e) Crossbred types of twelve months Texas wools (produced in Central and West Texas only) may be appraised in original bags under classes A-8 or A-9 of section III only when they contain no fleeces of 58s or coarser grades. Lots containing 58s or coarser fleeces must be graded before appraisal.

(2) *Length of staple classification of original bag wool.* Where original bag wool qualifies with respect to the grade and packing for market specifications, and the length of wool falls between two classes within the grade limitations, appraisers may classify it as of the next higher length class and discount the clean basis value applicable to that class up to five (5) cents per clean pound, providing the lot as prepared for market is merchantable. If the length variation is so wide that the wool is not readily merchantable in the condition pre-

sented, appraisers shall order such wool to be graded before appraisal.

2. *Wool entailing excessive conversion cost.* Any wool having character, condition, or defects, not covered by discount provisions in section VIII of the schedule, which will entail excessive waste and a consequent high conversion cost, shall be discounted a minimum of one (1) cent up to a maximum of seven (7) cents per clean pound.

3. *Damaged wool.* (a) Greasy wool damaged or deteriorated due to prior storage under improper conditions may be discounted a minimum of one (1) cent up to a maximum of seven (7) cents per clean pound where the wool does not require further processing to put it into merchantable condition. (b) Damaged wool that is not merchantable in the greasy condition shall be scoured before appraisal. Scoured wool damaged by fire, fresh or salt water, and heat, may be discounted up to a maximum of sixty-five (65) cents per pound, scoured, in which case no additional discounts will be taken for tender and color. Appraisers may reject such wools, if in their opinion the damage is sufficient to destroy its value as security for a loan.

4. *Stubby wool.* When "stubby" wool is present in greasy wool, appraisers may at their discretion discount such greasy wool for deficiency in length a minimum of one (1) cent up to a maximum of ten (10) cents per clean pound, or require the handler to remove such wool and scour it before appraisal.

5. *Definition of length of staple.* Where descriptions of length of staple classes contain specifications for length in terms of inches, the lengths apply to the "unstretched" staple. In other cases, the descriptive terms for length shall be applied in accordance with the customary trade practice.

6. *Greasy wools improperly prepared for market.* Appraisers shall require such wools to be graded or re-graded so as to put the wools into a readily merchantable condition in the grease, or be scoured before appraisal.

7. *Poorly scoured wools.* A minimum discount of two (2) cents to a maximum discount of seven (7) cents per scoured pound shall be made from the applicable scoured wool value.

8. *Special types bright and semi-bright.* When mid-southern or southern type wools are properly graded, they may be appraised under the proper classification for graded wool in section IV. Untied fleeces will be discounted two (2) cents per pound in the grease. These wools, unless graded, must be scoured before appraisal and appraised under section VI.

9. *Territory and fleece fed lamb wool.* Worst lamb wool, if tied fleeces of strictly combing length and free from woolen fleeces, may be appraised under the appropriate classification in sections I through IV. If worsted type untied, woolen type, or mixed woolen and worsted type lamb wool, they shall be scoured before appraisal and appraised under section VI.

10. *Panhandle, Oklahoma, and Kansas wheat field wools.* Generally shall be scoured before appraisal, and appraised under section VI. However, if, in the opinion of the appraiser, the wool can be merchandised in the greasy condition, it may be appraised under the proper grease wool classification.

11. *Scoured paint and tar wool and clips.* The appraisal value shall be determined by the appraiser.

12. *Skirted wools.* Wool which has been fully skirted (with skirtings packed separately and accompanying the skirted wool) may receive a premium up to 8 percent (rounded to the nearest cent) of the clean basis value for the appropriate classification for all grades in sections I through IV. Appraisers may at their discretion reduce the

premium when the skirting has been improperly performed.

**Note:** Appraisers will show separately on Appraisal Certificates the value for the appropriate classification and the premium allowed for skirting. Skirted wools packed in bags or bales shall not be discounted because of the fact that they are not tied. Skirtings shall be appraised at the proper classification for graded wools when sufficiently clear and uniform in grade and length. No discount will be taken for the untied skirtings packed in bags or bales. Skirtings lacking in uniformity of grade and length, and/or containing tags, burry pieces, and wool of generally inferior character, shall be appraised at the proper "off" wool classification in the grease, or ordered scoured at the discretion of appraisers and appraised under section VI.

**§ 672.378 Pulled wool purchase prices.** The purchase prices per pound for domestic pulled wool, by grades and classes, clean basis, at Boston, Massachusetts, are set forth in the following schedules. The discounts are noted immediately after the schedules. The actual purchase prices to producers, either directly or through approved handlers, will be those in the schedules less appraisal charges, appropriate transportation charges (depending upon where the wool is purchased), handling, grading, and other charges.

##### PULLED WOOLS

Discounts

1. **Short wool.** Pulled wools must be appraised as of the single length group which best represents the lot.

**Tolerance: Greasy pulled wool.** A tolerance of ten (10) percent of shorter length of staple of the same grade of greasy pulled wool may be allowed. The presence of over ten (10) percent of the shorter length will require that the lot be appraised at the shorter length price. Greasy pulled wool cannot be appraised at a higher classification and discounted for short staple in lieu of appraisal at a price applicable to a shorter length classification.

2. **Low wool.** Pulled wools must be appraised as of the single grade classification (single count or split counts) as shown in the schedule, which best represents the lot. Appraisers may at their discretion, discount individual lots up to twelve (12) cents per pound, clean basis, or scoured, or make an appropriate reduction in grade classification to compensate for low wool.

3. **Slight tinge.** Greasy or scoured pulled wool showing a slight tinge must be discounted three (3) cents per pound, clean basis or scoured, from the prices for the comparable grade and class of choice or average to good wools.

4. **Stained wools.** Greasy or scoured pulled wool showing stain must be discounted at least five (5) cents and not more than twenty-five (25) cents per pound, clean basis or scoured, from the price for the comparable grade and class of average to good wool.

5. **Defective (burry and/or seedy wool):**

A. **Burry and/or seedy pulled wool not requiring carbonizing**

(1) **Burry and seedy greasy pulled wool** shall be discounted a minimum of ten (10) cents, clean basis, from the price for the comparable grade and class of average to good clear wool. Appraisers may at their discretion make discounts up to twenty-five (25) cents, clean basis, or order burry and seedy greasy pulled wool scoured and carbonized before appraisal.

(2) **Burry and seedy scoured pulled wool** shall be discounted a minimum of fifteen (15) cents per scoured pound from the price for the comparable grade and class of average to good clear wool. Appraisers may at their discretion make discounts up to thirty (30) cents, scoured, or order the wool carbonized before appraisal.

Greasy or scoured pulled wool containing scattered burrs and/or seeds, but in quantities not sufficient to classify the wools as burry and seedy shall be discounted a mini-

mum of two (2) or a maximum of five (5) cents per clean or scoured pound from the price for the comparable grade and class of average to good clear wool.

B. *Burry and/or seedy wools requiring carbonizing.* All pulled wools requiring carbonizing must be carbonized before appraisal.

NOTE: In addition to the discounts for burry and seedy wools, appropriate discounts shall be made for short, low, stain, etc.

6. *Poorly scoured wools.* Poorly scoured pulled wool must be discounted not less than three (3) cents per scoured pound and not more than ten (10) cents per scoured pound, from the price for the comparable grade and class of average to good wool, or rejected.

7. *Tender wool.* For wool containing tender staple, the discount must be not less than three (3) cents per pound, and not more than twenty-five (25) cents per pound, clean basis or scoured, from the price for the comparable grade and class of average to good wool.

8. *Depilatory.* Make no discount on normal amount of depilatory. Wool containing an abnormal amount of depilatory may be discounted up to seven (7) cents from the price, clean basis or scoured, for the comparable grade and class of average to good wool. Figure to the nearest cent.

9. *Damaged scoured wools.* (Means dead wool, wool damaged by fire, salt or fresh water, and heat.) May be discounted up to a maximum of sixty-five (65) cents per pound, scoured, from the price for the comparable grade and class of average to good wool, or rejected.

NOTE: If wool is appraised as damaged scoured wool, no additional discount shall be taken for tender and color.

10. *Scoured pulled wool containing any gray locks or gray fibers.* Scoured pulled wools containing any gray locks or gray fibers, but not sufficient in quantity to classify the wools as gray wools, shall be discounted not to exceed forty (40) cents per pound, scoured, from prices for the comparable grade and class of average to good wool.

11. *Shank wools or eyebrows.* Scoured black and gray wools containing shank wools or eyebrows shall be discounted not more than twenty (20) cents per scoured pound from the price for the comparable grade and class of average to good wool, or, at the discretion of appraisers, shall be appraised under the shank wool classification, or rejected.

12. *Epidermis.* Greasy or scoured pulled wools containing epidermis shall be discounted not more than eight (8) cents per clean or scoured pound from the price for the comparable grade and class of average to good wool.

14. *Paint clips and tar wool.* Greasy or scoured pulled wools containing paint clips or tar shall be appraised at a minimum of 50 percent up to a maximum of 75 percent of the appraisal price for comparable grade and class of average to good clear wool, or rejected.

Such report shall include the data and information used by the committee in the formulation of such marketing policy. In developing the marketing policy, the committee shall give consideration to the following factors:

(a) The estimated number of cases of canned olives from preceding crop years held by handlers.

(b) The estimated tonnage of olives from preceding crop years held by handlers suitable for canning.

(c) The estimated production of olives in such crop year.

(d) The estimated production of each size of each variety of canning quality olives in such crop year.

(e) The estimated quantity of canned olives marketed in recent years.

(f) The current prices being received for canned olives by sizes and by varieties.

(g) The current prices received by producers for canning quality olives, oil olives, and processing olives other than canning quality olives.

(h) The trend and level of consumer income.

(i) The estimated probable market requirements for canned olives in such crop year segregated by each size of each variety.

(j) The estimated number of cases of each size of each variety of olives which should be canned during each crop year.

(k) Such other factors as may have a bearing on the marketing of olives.

§ 915.51 *Policy meeting.* The committee shall hold a meeting for the purpose of formulating and adopting the marketing policy for any crop year not later than August 1, preceding the beginning of such crop year: *Provided*, That with respect to the initial crop year, the committee shall hold a meeting for such purpose as soon as practicable after the effective date of this subpart.

#### VOLUME REGULATION

§ 915.56 *Recommendation for regulations.* (a) Whenever the committee

deems it necessary, in order to effectuate its marketing policy, to limit or prohibit the canning during any crop year, of any size of any variety, or varieties, of olives, it shall so recommend to the Secretary. The committee may recommend such limitations or prohibitions separately for each size of each variety. In the event any such recommendations are made to the Secretary information on the basis of which such recommendations are predicated, including, but not limited to, information with respect to the factors affecting the supply and demand for olives, by sizes and varieties thereof, and such additional information as may be requested by the Secretary.

(b) If after the harvesting season of olives for canning, but in no event later than December 31 of the current crop year, the committee determines that the aggregate canning quotas issued for a variety group exceeds the estimated quantity of canned olives set forth in § 915.50 (j) for that variety group, resulting in a quantity of canned olives in excess of the demand for canned olives as set forth in § 915.50 (i) and it is advisable to limit the total quantity of canned olives which may be shipped during such crop year, the committee may recommend to the Secretary the establishment of a regulation which will limit the quantity of canned olives canned during the current crop year which may be shipped during such crop year: *Provided*, That, following the completion of harvest of olives for canning, but in no event later than December 31 of each crop year, the committee shall determine the total amount of the canning quotas issued pursuant to § 915.59 separately for Group I and Group II varieties, and if the total of the canning quotas, plus the carry-in from the previous crop year, results in a quantity of canned olives 3 percent or greater than the estimated quantity set forth in § 915.50 (i) of the marketing policy report, the committee shall recommend to the Secretary that shipment of canned olives from olives produced during the current crop year be limited to a quantity which when added to the carry-in for that Group will make available for shipment a total quantity of canned olives of those varieties equal to the estimated market requirements for those varieties as set forth in the marketing policy report.

(c) In the event the committee subsequently deems it desirable to modify, suspend, or terminate, any designation by the Secretary of such limitations or prohibitions, it shall submit to the Secretary its recommendation in that regard along with the information on the basis of which such modification, suspension, or termination, is recommended.

(d) The committee shall file with its recommendations to the Secretary, a verbatim record of that portion of its meeting, or meetings, relating to the limitations or prohibitions.

(e) The committee shall give reasonable advance notice to producers and handlers, of each meeting to consider the recommendations of limitations or prohibitions to be fixed pursuant to § 915.57 (a) and (b) or any recommendations to modify, suspend, or terminate such limitations and prohibi-

tions and each such meeting shall be open to them. Such notice shall be given through publicity in newspapers having general circulation in the area, and may be given through other channels if the committee deems it desirable. The committee also shall give similar notice to producers and handlers, of all such recommendations submitted to the Secretary.

(f) The first recommendation by the committee as to limitations or prohibitions set forth in paragraph (a) of this section with respect to any crop year shall be filed with the Secretary not later than September 1 of such crop year: *Provided*, That, with respect to the initial crop year, such recommendation shall be filed with the Secretary as soon as practicable after the effective date of this subpart.

(g) The first recommendation by the committee as to the limitations of shipments as set forth in paragraph (b) of this section, with respect to any crop year shall be filed with the Secretary not later than \_\_\_\_\_ of such crop year.

#### § 915.57 *Regulation by the Secretary.*

(a) Based upon the aforesaid recommendation and information furnished by the committee, or upon other information available to the Secretary, the Secretary shall limit or prohibit, if he finds that such regulation would tend to effectuate the declared policy of the act, the total quantity of any size, or sizes, of any variety, or varieties, of olives acquired by handlers which may be canned during any crop year. The regulations established by the Secretary of the canning of olives shall be effectuated by designating the percentage of each size of each variety of olives acquired by a handler during any crop year which may be canned. In the event the Secretary subsequently finds from the recommendations and supporting information, that modification, suspension, or termination of any such designations will tend to effectuate the declared policy of the act, he shall so modify, suspend, or terminate such designations.

(b) Whenever the Secretary finds, from the recommendation, reports, and information submitted by the committee, or from other available information, that to limit the total quantity of canned olives canned from olives produced during a current crop year, that may be shipped during such crop year, will tend to effectuate the declared policy of the act, he shall establish such regulation for the crop year. At the time of the establishment of such limitation the Secretary shall determine:

(1) The quantity of canned olives of each variety available or that will become available for shipment during such crop year.

(2) The quantity of canned olives of each variety canned, or to be canned, from olives produced during the current crop year.

(3) The total quantity of canned olives of each variety advisable to be available for shipment during the crop year.

The regulations established by the Secretary shall be effectuated by designating, the percentage of each variety of

canned olives canned by each handler from olives produced during the crop year which, in addition to his carryover, may be shipped during the crop year: *Provided*, That in no event shall the total quantity of canned olives of each variety available for shipment during any crop year be less than the estimated quantity set forth in § 915.50 (i) of the marketing policy report.

(c) The Secretary may designate separately the percentage of each size of each variety of canning quality olives acquired by handlers in any crop year which may be canned.

(d) The Secretary shall notify the committee promptly of each such percentage so designated. The committee in turn shall give prompt notice thereof to producers and handlers, including, but not necessarily limited to written notice by registered mail to each handler of whom the committee has record.

§ 915.58 *Certification*. (a) Each handler who acquires natural condition olives which he desires to have included in the determination of his canning quota shall in the manner specified by the committee and under its supervision, size-grade and weigh and record the weight of each size of each variety of canning quality olives contained in such natural condition olives.

(b) The committee shall issue certificates covering such natural condition olives, evidencing the determinations made by the handler under its supervision. Copies of the certificate shall be issued to the handler and to the producer. For purposes of preventing duplicate determination of canning quotas applicable to the same olives, no natural condition olives may be offered for certification more than one time by the same or different handlers, except pursuant to rules and regulations established by the committee.

§ 915.59 *Issuance of canning quota*. When a regulation on the canning of olives has been issued by the Secretary pursuant to § 915.57, the committee shall compute from the information contained in each certificate issued, as provided for in § 915.58, the quantity of canning quality olives of each size of each variety covered by such certificate which, pursuant to such regulation may be canned, or caused to be canned. The aggregate canning quota of a handler shall be the sum of the canning quota certificates issued to the handler expressed in terms of cases of canned olives. The committee shall establish, with the approval of the Secretary, conversion factors for converting any can size, or style pack to its No. 1 tall can size equivalent.

§ 915.60 *Handler transfers of canning quality olives and canning quotas*. A canning quota, or any portion thereof, may be transferred, subject to rules and regulations established by the committee: *Provided*, That a quantity of canning quality olives or processed canning quality olives in an amount equal to the portion of the quota transferred is also transferred to the same person.

§ 915.61 *Limitation of canned olives—*  
(a) *Canning quotas*. No person as prin-

cipal, agent, broker, or legal representative, or otherwise, shall can any olives harvested in a crop year for which regulations have been issued pursuant to § 915.57 (a), unless prior to such canning the committee shall have issued to such person a "Canning Olive Quota Certificate" applicable to such olives.

(b) *Shipment*. No person, as principal, agent, broker, or legal representative, or otherwise, shall ship any canned olives canned in a crop year for which regulations have been issued pursuant to § 915.57 (b) except in accordance with such regulations.

(c) *Additional procedures*. The committee may establish from time to time, with the approval of the Secretary, additional procedures not inconsistent with provisions of this subpart, which are deemed to be necessary to effectuate the provisions of this section and of §§ 915.58, 915.59 and 915.60.

#### REPORTS AND RECORDS

§ 915.62 *Reports and records*. Each handler shall, upon request of the committee, file promptly with the committee a certified report of all olives in process suitable for canning and canned olives which were held by him on August 1 of any crop year, which report also shall show the quantity of each size of each variety and the locations thereof.

§ 915.63 *Other reports*. Upon request of the committee, each canner shall file with it a certified report for any period as specified showing: (a) The quantity of olives of each size of each variety canned; (b) the quantity of each size of each variety of canned olives held by him, and the location thereof, at the end of such period; (c) cumulative totals of each size of each variety canned from the beginning of the then current crop year to and including the end of the period for which the report is made. Each such periodic report shall be filed not later than ten days following the period which is covered by such report. Upon request of the committee, each handler shall furnish to the committee, in such manner and at such times as it may prescribe, the name and address of each person from whom he received canning quality olives and the quantity of each size of each variety of canning quality olives received from each such person. Also, upon the request of the committee and with the approval of the Secretary, each handler shall furnish to the committee such other reports and information as may be necessary to enable the committee to exercise its powers and perform its duties under this subpart.

§ 915.64 *Confidential information*. All reports and records furnished or submitted by handlers to the committee shall be received by and at all times kept under the custody or control of one or more employees of the committee, who shall disclose to no person, except the Secretary upon request therefor, or to the committee in connection with its investigations of alleged violations, data or information obtained or extracted therefrom which would constitute a trade secret or the disclosure of which might affect the trade position, financial con-

dition, or business operations of the particular handler from whom received: *Provided*, That the committee may require such an employee to disclose to it, or to any person designated by it or by the Secretary, information and data of a general nature, compilations of data affecting handlers as a group, and any data affecting one or more handlers so long as the identity of the individual handlers involved is not disclosed.

§ 915.65 *Records*. Each handler shall maintain such records of all canning quality olives received by him as prescribed by the committee. Such records shall include, but not be limited to, the quantity of canning quality olives of each size of each variety acquired from each person and the name and address of each such person, total receipts, total sales, and total other disposition of each size of each variety which he handled.

§ 915.66 *Verification of reports*. For the purpose of checking and verifying reports filed by handlers, the committee, through its duly authorized representatives, shall have access to any handler's premises during regular business hours, and shall be permitted at any such times to inspect such premises and any olives held by such handler, and any and all records of the handler with respect to the holding or disposition of olives by him. Each handler shall furnish all labor and equipment necessary to make such inspections. Each handler shall maintain records which will permit accurate identification of olives held by him or theretofore disposed of. Insofar as it is practicable and consistent with the carrying out of the provisions of this subpart, all data and information obtained or received through checking and verification of reports shall be treated as confidential information.

#### EXPENSES AND ASSESSMENTS

§ 915.67 *Expenses*. The committee is authorized to incur such expenses as the Secretary finds are reasonable and likely to be incurred by it during each crop year, for the maintenance and functioning of the committee and the councils. The recommendation of the committee as to these expenses for each such crop year, together with all data supporting such recommendation, shall be filed with the Secretary on or before August 15 preceding the crop year in connection with which such recommendation is made: *Provided*, That, with respect to the initial crop year, the committee shall file such recommendation and supporting data with the Secretary as soon as practicable after the effective date of this subpart. The funds to cover such expenses shall be obtained by levying assessments as provided in § 915.68.

§ 915.68 *Assessments*. Each handler shall, with respect to all canned olives canned by him during each crop year, pay to the committee, upon demand, his pro-rata share of the expenses which the Secretary finds, pursuant to § 915.67, will be incurred by the committee during each crop year. Each handler's pro rata share of such expenses shall be equal to the ratio between the total canned

olives canned by such handler and the total canned olives canned by all handlers during the same crop year. The Secretary shall fix the rate of assessment to be paid by each handler on the basis of a specified rate per case. At any time during or after a crop year, the Secretary may increase the rate of assessment to apply to all canned olives canned during such crop year to obtain sufficient funds to cover any later finding by the Secretary relative to the expenses of the committee. Each handler shall pay such additional assessment to the committee upon demand. In order to provide funds to carry out the functions of the committee and the councils, the committee may accept advance payments from any handler to be credited toward such assessments as may be levied pursuant to this section against the respective handler during the crop year: *Provided*, That no assessment shall be levied on canned olives canned from olives harvested prior to September 1, 1953. The payment of assessments for the maintenance and functions of the committee and the councils, as provided for herein, may be required throughout the period this subpart is in effect and irrespective of whether particular provisions thereof are suspended and become inoperative.

**§ 915.69 Accounting.** (a) If, at the end of any crop year, the assessments collected for such crop year exceed the expenses incurred with respect to such crop year, each handler's share of such excess shall be credited to him against the operations of the following crop year, unless such handler demands payment thereof, in which case his share shall be paid to him.

(b) The committee may, with the approval of the Secretary, maintain in its own name or in the name of its members, a suit against any handler for the collection of such handler's pro rata share of the expenses.

**§ 915.70 Funds.** All funds received by the committee pursuant to the provisions of this subpart shall be used solely for the purposes authorized in this subpart and shall be accounted for in the manner provided in this subpart. The Secretary may, at any time, require the committee and its members and alternate members to account for all receipts and disbursements.

#### MISCELLANEOUS PROVISIONS

**§ 915.71 Personal liability.** No member or alternate member of the committee or the councils or any employee or agent thereof shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any handler or any person, for errors in judgment, mistakes, or other acts either of commission or omission, as such member, alternate member, employee, or agent, except for acts of dishonesty.

**§ 915.72 Separability.** If any provision of this subpart is declared invalid or the applicability thereof to any person, circumstance, or thing, is held invalid, the validity of the remainder of this subpart or the applicability thereof to

any other person, circumstance, or thing, shall not be affected thereby.

**§ 915.73 Derogation.** Nothing contained in this subpart is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States to exercise any powers granted by the act or otherwise, or, in accordance with such powers, to act in the premises whenever such action is deemed advisable.

**§ 915.74 Duration of immunities.** The benefits, privileges, and immunities, conferred upon any person by virtue of this subpart shall cease upon the termination of this subpart, except with respect to acts done under and during the existence of this subpart.

**§ 915.75 Agents.** The Secretary may, by a designation in writing, name any person, including any officer or employee of the United States Government, or name any bureau or division in the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions of this subpart.

**§ 915.76 Effective time.** The provisions of this subpart, as well as any amendments to this subpart, shall become effective at such time as the Secretary may declare, and shall continue in force until terminated, or during suspension, in one of the ways specified in § 915.77.

**§ 915.77 Suspension or termination.** (a) The Secretary may, at any time, terminate the provisions of this subpart by giving at least one day's notice by means of a press release or in any other manner which he may determine.

(b) The Secretary shall terminate or suspend the operation of any or all of the provisions of this subpart, whenever he finds that such provisions do not tend to effectuate the declared policy of the act.

(c) The Secretary shall terminate the provisions of this subpart at the end of any crop year whenever he finds that such termination is favored by a majority of producers who, during a representative period determined by the Secretary, were producers: *Provided*, That such majority have, during such representative period, produced for market more than 50 percent of the volume of such olives produced for market, but such termination shall be effective only if announced on or before May 1 of the then current crop year.

(d) The provisions of this subpart shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

**§ 915.78 Proceedings after termination.** (a) Upon the termination of the provisions of this subpart, the members of the committee then functioning shall continue as joint trustees for the purpose of liquidating the affairs of the committee, of all funds and property then in the possession or under the control of the committee, including claims for any funds unpaid or property not delivered at the time of such termination. Action by said trusteeship shall require

the concurrence of a majority of the said trustees.

(b) Said trustees shall continue in such capacity until discharged by the Secretary, shall, from time to time account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and the joint trustees, to such person as the Secretary may direct; and shall, upon the request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all of the funds, property, and claim vested in the committee or the joint trustees pursuant to this subpart.

(c) Any person to whom funds, property or claims have been transferred or delivered by the committee or its members, pursuant to this section, shall be subject to the same obligations imposed upon the members of the said committee and upon said joint trustees.

**§ 915.79 Effect of termination or amendment.** Unless otherwise expressly provided by the Secretary, the termination of this subpart or any regulation issued pursuant thereto, or the issuance of any amendment to either thereof, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen, or which may thereafter arise, in connection with any provision of this subpart, or any regulation issued thereunder; (b) release or extinguish any violation of this subpart or of any regulation issued thereunder; or (c) affect or impair any rights or remedies of the Secretary or any other person, with respect to any such violation.

**§ 915.80 Amendments.** Amendments to this subpart may be proposed from time to time, by any person or by the committee.

## SECURITIES AND EXCHANGE COMMISSION

[ 17 CFR Part 239 ]

REGISTRATION STATEMENT UNDER THE  
SECURITIES ACT OF 1933

### NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the Securities and Exchange Commission has under consideration a proposed form for registration under the Securities Act of 1933 of securities offered pursuant to certain types of employees stock purchase and savings plans.

The Commission has had under consideration for some time the question whether its rule making powers under the statute might properly be employed to simplify its registration requirements in certain circumstances where, because of the nature and purposes of the offering, such action would not be inconsistent with the public interest and the protection of investors. The increasing interest on the part of many corporations in thrift, savings or stock purchase plans involving the accumulation of funds of employees and the employer, for investment in securities of the employer, has prompted the Commission to give special attention to the registration and prospectus requirements applicable to such plans.

It has been suggested by many corporate officials that these plans are proposed, in connection with programs for furthering improved employee relations, to stimulate interest in the ownership by employees of securities of employers and that they offer many special advantages to both the employee and the employer. Many of these plans afford employees an opportunity to acquire an interest in the employer's securities upon favorable terms because of substantial reductions in price or of contributions by the employer. It has been urged therefore that the investment decision to be made by the employee is of a somewhat different character than is involved where securities are being offered for the purpose of

raising capital to finance the business of the issuing company and that the Commission should give some recognition to this in prescribing registration and prospectus requirements.

Having these circumstances in mind, the Commission is distributing for comment a form which would provide for a simplified registration procedure and prospectus for issuers offering securities pursuant to plans which conform to certain specified conditions. The form is for use by companies which file reports pursuant to section 13 or 15 (d) of the 1934 Act and which make periodic contributions in cash or securities for the benefit of participating employees who deposit cash or authorize payroll deductions.

In order to insure that the form may not be employed by companies offering securities for the purpose of raising capital, securities of the issuer acquired with funds accumulated pursuant to the plan must in the main be purchased in the open market. The employee must be afforded the right, however, to withdraw his own contributions without forfeiture until such time as he is permitted to withdraw or exercise control over all funds and securities credited to his account under the plan.

Companies eligible to use the form may register their securities by filing a short prospectus the principal features of which consist of a brief description of the plan, a summary of earnings for five years, a balance sheet as of the close of the issuer's latest fiscal year and a description of the securities being registered. There must be delivered with the prospectus a copy of the issuer's report to its stockholders for its latest fiscal year and to the extent the financial statements required in the prospectus are contained in such report, they may be incorporated by reference. The report to stockholders is not to be deemed material "filed" under the act, however, except to the extent that portions thereof are incorporated by reference in the prospectus, and therefore is not subject to the liabilities under section 11 of the act. In addition to the usual undertaking to file reports with the Commission, the issuer will be required to transmit to employee participants copies of all material ordinarily distributed to the issuer's stockholders.

A copy of the proposed form is attached hereto.<sup>1</sup>

All interested persons are invited to submit data, views and comments on the proposed form in writing to the Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C., on or before May 12, 1953.

By the Commission,

ORVAL L. DUBOIS,  
Secretary.

Public Debt

[1953 Dept. Circ. 921]

## 3 1/4 PERCENT TREASURY BONDS OF 1978-83

## OFFERING OF BONDS

APRIL 13, 1953.

**I. Offering of bonds.** 1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites subscriptions, from the people of the United States, for bonds of the United States, designated 3 1/4 percent Treasury Bonds of 1978-83.

2. **Cash offering.** Subscriptions are invited at par and accrued interest. The amount of the public offering is \$1,000,000,000, or thereabouts. In addition to the amount offered for public subscription, the Secretary of the Treasury reserves the right to allot limited amounts of these bonds to Government Investment accounts.

3. **Exchange offering.** Exchange subscriptions are invited at par, with interest adjustments as set forth in section IV hereof, from holders of United States Savings Bonds of Series F and G maturing in the months of May through December, 1953. Holders of Series F and G bonds aggregating less than an even multiple of \$500 maturity value may exchange such bonds with payment of the difference in cash to make up the next higher \$500 multiple.

**II. Description of bonds.** 1. The bonds will be dated May 1, 1953, and will bear interest from that date at the rate of 3 1/4 percent per annum, payable on a semi-annual basis on December 15, 1953, and thereafter on June 15 and December 15 in each year until the principal amount becomes payable. They will mature June 15, 1983, but may be redeemed at the option of the United States on and after June 15, 1978, in whole or in part, at par and accrued interest, on any interest day or days, on 4 months' notice of redemption given in such manner as the Secretary of the Treasury shall prescribe. In case of partial redemption the bonds to be redeemed will be determined by such method as may be prescribed by the Secretary of the Treasury. From the date of redemption designated in any such notice, interest on the bonds called for redemption shall cease.

2. The income derived from the bonds shall be subject to all taxes now or hereafter imposed under the Internal Revenue Code, or laws amendatory or supplementary thereto. The bonds shall be subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but shall be exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

3. The bonds will be acceptable to secure deposits of public moneys.

4. Bearer bonds with interest coupons attached, and bonds registered as to principal and interest, will be issued in denominations of \$500, \$1,000, \$5,000, \$10,000, \$100,000, and \$1,000,000. Provision will be made for the interchange of bonds of different denominations and of coupon and registered bonds, and for the transfer of registered bonds, under rules and regulations prescribed by the Secretary of the Treasury.

5. Any bonds issued hereunder which upon the death of the owner constitute part of his estate, will be redeemed at the option of the duly constituted representatives of the deceased owner's estate, at par and accrued interest to date of payment.<sup>1</sup> *Provided:*

(a) That the bonds were actually owned by the decedent at the time of his death; and

(b) That the Secretary of the Treasury be authorized to apply the entire proceeds of redemption to the payment of Federal estate taxes.

Registered bonds submitted for redemption hereunder must be duly assigned to "The Secretary of the Treasury for redemption, the proceeds to be paid to the Director of Internal Revenue at \_\_\_\_\_ for credit on Federal estate taxes due from estate of \_\_\_\_\_." Owing to the periodic closing of the transfer books and the impossibility of stopping payment of interest to the registered owner during the closed period, registered bonds received after the closing of the books for payment during such closed period will be paid only at par with a deduction of interest from the date of payment to the next interest payment date;<sup>2</sup> bonds received during the closed period for payment at a date after the books reopen will be paid at par plus accrued interest from the reopening of the books to the date of payment. In either case checks for the full six months' interest due on the last day of the closed period will be forwarded to the owner in due course. All bonds submitted must be accompanied by Form PD 1782,<sup>3</sup> properly completed, signed and sworn to, and by proof of the representatives' authority in the form of a court certificate or a certified copy of the representatives' letters of appointment issued by the court. The certificate, or the certification to the letters, must be under the seal of the court, and except in the case of a corporate representative, must contain a statement that the appointment is in full force and

<sup>1</sup> An exact half-year's interest is computed for each full half-year period irrespective of the actual number of days in the half year. For a fractional part of any half year, computation is on the basis of the actual number of days in such half year.

<sup>2</sup> The transfer books are closed from May 16 to June 15, and from November 16 to December 15 (both dates inclusive) in each year.

<sup>3</sup> Copies of Form PD 1782 may be obtained from any Federal Reserve Bank or from the Treasury Department, Washington, D. C.

be dated within six months prior to the submission of the bonds, unless the certificate or letters show that the appointment was made within one year immediately prior to such submission. Upon payment of the bonds appropriate memorandum receipt will be forwarded to the representatives, which will be followed in due course by formal receipt from the Director of Internal Revenue.

6. Except as provided in the preceding paragraph, the bonds will be subject to the general regulations of the Treasury Department, now or hereafter prescribed, governing United States bonds.

**III. Subscription and allotment—1. Cash subscriptions.** Subscriptions will be received at the Federal Reserve Banks and Branches and at the Treasury Department, Washington. Commercial banks, which for this purpose are defined as banks accepting demand deposits, may submit subscriptions for account of customers, but only the Federal Reserve Banks and the Treasury Department are authorized to act as official agencies. Others than commercial banks will not be permitted to enter subscriptions except for their own account. Subscriptions from commercial banks for their own account will be received without deposit, but will be restricted in each case to an amount not exceeding 5 percent of the combined amount of time certificates of deposit (but only those issued in the names of individuals, and of corporations, associations, and other organizations not operated for profit), and of savings deposits, as shown on the bank's books as of December 31, 1952. Subscriptions from all others must be accompanied by payment of 10 percent of the amount of bonds applied for. Where payment for bonds allotted is to be deferred beyond May 1, 1953, as provided in Section IV hereof, delivery of 10 percent of the total par amount of bonds allotted, adjusted to the next higher \$500, will be withheld from all subscribers except incorporated banks and trust companies until payment for the total amount allotted has been completed. In every case where payment is not so completed the 10 percent so withheld shall, upon declaration made by the Secretary of the Treasury in his discretion, be forfeited to the United States.

2. **Exchange subscriptions.** Subscriptions will be received at the Federal Reserve Banks and Branches and at the Treasury Department, Washington. Banking institutions generally, and paying agents eligible to process bonds under Treasury Department Circular No. 888, Revised (18 F. R. 2100), may submit exchange subscriptions for account of customers.

3. The Secretary of the Treasury reserves the right to reject any subscription, in whole or in part, to allot less than the amount of bonds applied for, and to close the books as to any or all subscriptions at any time without no-

tice; and any action he may take in these respects shall be final. Subject to these reservations, cash subscriptions from commercial banks for their own account may be allotted on a different percentage basis than cash subscriptions from other classes of subscribers, and subscriptions in payment of which United States Savings Bonds of Series F and G maturing in the months of May through December, 1953, are tendered and accepted will be allotted in full. The bases of the allotment on cash subscriptions will be publicly announced, and allotment notices will be sent out promptly upon allotment.

IV. *Payment*—1. *Cash subscriptions.* Payment at par for bonds allotted hereunder may be made or completed on or before May 1, 1953, or payment at par and accrued interest from May 1, 1953, may be made at any time or times thereafter, with payment to be fully completed not later than July 31, 1953. One day's accrued interest is \$0.089 per \$1,000. Any qualified depository will be permitted to make payment by credit for bonds allotted to it for itself and its customers up to any amount for which it shall be qualified in excess of existing deposits, when so notified by the Federal Reserve Bank of its District.

2. *Exchange subscriptions.* Payment for bonds allotted hereunder on exchange subscriptions must be made on or before May 1, 1953, or on later allotment, and may be made only in United States Savings Bonds of Series F and Series G maturing from May 1 to December 1, 1953, inclusive, which will be accepted at par, and should accompany the subscription, together with any cash difference necessary to make up an even \$500 multiple, and where Series F bonds are exchanged, by any interest to be collected from the subscriber. Holders of Series F and G bonds will receive interest on the new bonds at the rate of 3½ percent from May 1, 1953, and interest adjustments with respect to bonds accepted in exchange will be made as follows:

(a) *Series F bonds.* Holders of Series F bonds maturing after May 1, 1953, tendered in exchange and accepted will be charged an amount equivalent to interest on the maturity value from May 1 to the respective dates of maturity of the Series F bonds at the rate of 2.53 percent per annum as follows:

Amount of interest per \$100 maturity value to be collected from subscriber

Bonds maturing on the first day of—	
May 1953.....	.....
June 1953.....	..... \$0.2155
July 1953.....	..... .4263
August 1953.....	..... .6430
September 1953.....	..... .8456
October 1953.....	..... 1.0576
November 1953.....	..... 1.2650
December 1953.....	..... 1.4805

(b) *Series G bonds.* Holders of Series G bonds tendered in exchange and accepted will be credited with accrued interest from the last preceding interest payment date to May 1, 1953, at the rate of 2½ percent per annum, as follows:

Amount of final interest per \$100 maturity value to be paid to subscriber

Bonds maturing on the first day of—

LAWRENCE GAS AND ELECTRIC CO. ET AL.

NOTICE OF FILING REGARDING SEPARATION OF  
ELECTRIC AND GAS PROPERTIES AND OTHER  
TRANSACTIONS IN CONNECTION THERE-  
WITH

APRIL 13, 1953.

In the matter of Lawrence Gas and Electric Company, Lawrence Gas Company, New England Electric System, File No. 70-3016.

Notice is hereby given that a joint application-declaration has been filed with this Commission by New England Electric System ("NEES"), a registered holding company, and its public-utility subsidiary, Lawrence Gas and Electric Company ("Lawrence"), and Lawrence Gas Company ("Lawrence Gas"), a gas utility company organized December 31, 1951, for the purpose of acquiring Lawrence's gas properties and business. Applicants-declarants have designated sections 6, 7, 8, 9, 10 and 12 of the Public Utility Holding Company Act of 1935 (the "act") and Rules U-23, U-44 and U-45 promulgated thereunder as applicable to the proposed transactions, which are summarized as follows:

At the present time, Lawrence has outstanding 188,000 shares of capital stock, \$25 par value, of which NEES owns 170,002 shares or 90.42 percent and the public, 17,998 shares or 9.58 percent. Lawrence proposes to sell its gas properties and business to Lawrence Gas which, it is stated, will record the assets received and the liabilities assumed at book values. Such liabilities, including \$1,380,000 of unsecured promissory notes, are stated to be attributable to Lawrence's gas business. None of Lawrence's presently outstanding \$2,750,000 principal amount of 2½ percent first mortgage bonds will be assumed by Lawrence Gas. As a result of the sale, Lawrence, presently a gas and electric company, will do solely an electric business while Lawrence Gas will do solely a gas business. Lawrence will change its name to "Lawrence Electric Company".

In connection with the proposed sale of its gas properties, Lawrence proposes to reduce the par value of its capital stock from \$25 to \$10 per share so that in lieu of 188,000 shares of \$25 par value

stock, it will have outstanding 470,000 shares of \$10 par value stock. Thereafter Lawrence proposes to cancel 188,000 shares of the \$10 par value stock, thus reducing the number of shares of such stock outstanding to 282,000. Concurrently with the above transactions, Lawrence Gas proposes to issue 188,000 shares of its \$10 par value capital stock to the stockholders of Lawrence.

Stockholders of Lawrence will be entitled to receive for each share of presently outstanding \$25 par value stock, one share of Lawrence Gas stock and 1½ shares of Lawrence stock, aggregating \$25 par value. Lawrence proposes to issue fractional scrip certificates in lieu of any fractional shares to which a stockholder may be entitled, such certificates to remain valid for one year. Such fractional scrip certificates may be combined for presentation for full shares. During the life of such scrip, Lawrence will purchase all scrip certificates offered to it on the basis of \$12 for each one-half share certificate and will make any certificates so purchased available to other fractional scrip holders at the same price. Upon the expiration of the life of such scrip, Lawrence proposes to pay all scrip holders \$12 for each one-half share certificate held.

Upon consummation of the proposed transactions, NEES will own 225,003 shares of Lawrence's stock (90.42 percent) and 170,002 shares of Lawrence Gas' stock (90.42 percent), the aggregate par value of which (\$4,250,050) will be equal to the aggregate par value of NEES' present holding of 170,002 shares of Lawrence's stock. NEES proposes to record its investment in Lawrence and in Lawrence Gas in an aggregate amount equal to the recorded value of its present investment in Lawrence.

The application-declaration states that incidental services in connection with the proposed transactions will be performed by New England Power Service Company, an affiliated service company, at the actual cost thereof. The application-declaration further states that the Massachusetts Department of Public Utilities has jurisdiction over the proposed transactions and that Lawrence and Lawrence Gas have filed a joint petition with that Commission seeking an order approving the proposed transactions, a copy of which, when issued, will be supplied by amendment. The application-declaration further states that no Federal commission, other than this Commission, has jurisdiction over the proposed transactions. The applicants-declarants request that the Commission's order herein become effective forthwith upon issuance.

Notice is further given that any interested person may, not later than April 29, 1953, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reason or reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission,

425 Second Street NW., Washington 25, D. C. At any time after said date, the application-declaration, as filed or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act or the Commission may exempt such transactions as provided in Rules U-20 and U-100 thereof.

PUBLIC CONVENIENCE AND NECESSITY

APRIL 13, 1953.

Take notice that East Tennessee Natural Gas Company (Applicant), a Tennessee corporation with its principal office near Knoxville, Tennessee, filed on April 3, 1953, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation, in Roane County, Tennessee, of approximately four miles of 6-inch O. D. pipe line (together with regulating, metering, measuring and other appurtenant equipment) extending in a southerly direction from a point of interconnection with Applicant's existing Greenbrier-Oak Ridge 22-inch diameter pipe line to a point near the City of Harriman.

The Commission by its order issued August 24, 1951, in Docket No. G-1517

granted a certificate of public convenience and necessity authorizing Applicant, among other things, to construct and operate a lateral pipe line therein referred to as the "Harriman Lateral", the same being approximately four miles of 3½-inch O. D. pipe line extending from a point of connection with Applicant's Greenbrier-Oak Ridge pipe line to near Harriman, Tennessee, and to deliver and sell natural gas to that city for resale therein and its environs. The said lateral was placed in operation in August 1952.

The application states that Applicant's existing Harriman Lateral is of insufficient size to render adequate service to the City of Harriman, during peak hours and occasionally on days of high daily demands. The application further states that the proposed new lateral line to that city, which is to loop Applicant's existing Harriman Lateral, is needed in order to serve adequately the city's natural-gas requirements. Applicant states that its currently effective contractual obligation to deliver to the City of Harriman up to 2,500 Mcf of natural gas per day has not been, and in the reasonably foreseeable future is not to be, enlarged.

The estimated cost of the proposed "Harriman loop" is \$63,161, which Applicant proposes to finance out of cash funds on hand. The application states that, if the proposed pipeline is authorized, Applicant is prepared to commence construction immediately and to place such facilities in operation within 15 days after construction is begun.

Applicant requests that the intermediate decision procedure be omitted and that its application be disposed of pursuant to the shortened procedure provided for in § 1.32 (b) of the Commission's rules of practice and procedure (18 CFR 1.32 (b)).

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with its rules of practice and procedure (18 CFR 1.8 or 1.10), on or before the 4th day of May 1953. The application is on file with the Commission for public inspection.
